Donate Fruit™ Cause

Naumes will match your purchase in a donation

Our family has been donating fresh fruit to those in need for generations. For every gift you purchase, our family will match it pound-for-pound, donating fresh and nutritious fruit to food banks that help feed the need™.

Working to end hunger is especially critical in today's economic climate. Through our Donate Fruit™ cause your purchase gives twice, putting fresh fruit in the hands of hungry families.

Gift recipients will be made aware that their gift has been matched pound for pound with a donation to help families in need. Your purchase gives double-fold. In today's challenging economic market, no better gift can one give or receive than knowing it has also created an important difference in the lives of others.

The Need

- For every 1 in 8 Americans, hunger is a daily reality
- According to the USDA, an estimated 12.4 million children lived in food-insecure households in 2007.
- Scientific evidence suggests that hungry children are less likely to become productive citizens.

You Can Help Feed the Need

Through our Donate Fruit™ cause, together we can put fresh fruit in the hands of families in need. Fresh and nutritious food is a vital component of healthy nutrition. Because needy families often rely on cheaper, processed foods that can lead to obesity and other health problems, Naumes is committed to providing healthy fresh fruit to their tables.
